Brenda

I am out of town. We rinsed but did not clean 3 of the 4. 1 of the 4 was sent off-site for cleaning. I believe it was 1004 but will have to check.

I will check and get back to you.

Thanks

We are trying to finish up the closure activities for the waste units at CES. Questions have arisen about the four frac tanks. I understood that you sent them off to be cleaned or rinsed after you finished using them. Can you provide any paperwork or certificates about the cleaning or rinsing? Below is a picture of the four frac tanks. The tank numbers are 1001, 5180, 1002, and 1004.

Thanks
Brenda
